www.linkedin.com/in/mangaljoeedwin

Mangal brings over 10 years of experience driving GTM strategy, product positioning, and revenue growth across B2B SaaS products. Proven track record of owning end-to-end product marketing for AI-native products, building competitive intelligence systems from scratch, and creating sales enablement frameworks that improve win rates and accelerate deal cycles. Deep experience connecting PMM work to pipeline, win rates, feature adoption, and ARR.

WORK EXPERIENCE

AI Workflow and Productivity

- Established a personal knowledge operating system using Obsidian and AI, converting dispersed insights from peers, research, and industry leaders into connected frameworks, validated beliefs, and reusable strategic assets that enhance my working speed, decision quality and output.
- Experimented with agent-based systems (Dust.tt) to automate research, asset generation, and briefing workflows
- Leveraged tools like Claude and ChatGPT to streamline content production, competitive analysis, and internal enablement

SpotDraft, Bangalore

Role: Senior Product Marketing Manager | September 2023 - Present

Sidebar (AI Assistant) - Product GTM and Adoption

- Led GTM and adoption strategy for Sidebar (AI assistant) across beta and early rollout phases, shaping positioning to differentiate grounded legal AI from generic AI tools
- Identified top use cases and drove adoption across 100+ workspaces within the first 90 days
- Drove 35.8% activation rate through lifecycle and onboarding improvements
- Built lifecycle campaigns (email, in-app, CS plays) improving engagement by 25-30%
- Defined segmentation strategy for high-intent accounts, supporting expansion pipeline creation
- Partnered with Product to refine onboarding, retention, and use-case positioning based on usage data
- Contributed to \$500K in revenue through Sidebar GTM, adoption, and expansion motions

End-to-End GTM and Campaign Strategy

- Drove GTM for 6+ major product releases including Sidebar, Contract Analytics, Legal Hub, Smart Data Capture, Clickthrough, and MS Word integrations, aligning product, marketing, and revenue teams around a unified launch strategy, influencing \$4M+ pipeline
- Increased feature adoption by 25-30% through structured launch campaigns and onboarding
- Built GTM frameworks across beta, GA, and expansion phases, reducing time-to-value by ~20%
- Led integrated, multi-channel GTM campaigns across product launches and lifecycle initiatives including email, in-app messaging, webinars, and sales enablement, ensuring consistent messaging across the funnel

Positioning, Competitive Intelligence and GTM

- Defined and scaled the AI-native CLM narrative, positioning SpotDraft against traditional CLM vendors and AI-first tools, establishing clear market differentiation
- Built competitive positioning and battlecard systems improving win rates by 15-20% in competitive deals
- Worked with Clozd to operationalize win/loss analysis frameworks, uncovering buying signals, objections, and competitive dynamics to improve segmentation and GTM effectiveness
- Built the GTM Buddy sales enablement framework providing standardized messaging, talk tracks, competitive positioning, and objection handling across all products and personas
- Developed "Why Now" narratives connecting AI adoption trends with legal workflows and customer outcomes, used across sales, and launch communications

Customer Lifecycle Marketing and Growth

- Designed and scaled lifecycle marketing programs across onboarding, activation, adoption, and expansion, driving improvements in product engagement and PQL generation
- Led onboarding and activation strategy using in-product experiences (Chameleon) and guided workflows, improving key product actions by 25-40%
- Partnered with Customer Success and Revenue teams to define and execute cross-sell and upsell motions across analytics, AI add-ons, and workflow products, contributing to \$1.5M+ expansion pipeline development
- Built product-usage driven segmentation to surface ~100 high-intent PQLs/month for CS and revenue follow-up
- Built segmentation frameworks improving campaign conversion by ~20%

Tool Stack: Salesforce, Chameleon, Navattic, Customer.io, IgnitionApp, G2, Google Analytics, MoEngage, Whatfix, GTM Buddy, Clozd, Slack, Notion

Happay, Bangalore

Role: Senior Manager - Product Marketing | July 2022 - May 2023

- Led GTM strategy for analytics and travel product lines, improving win rates by 25% through enhanced positioning and sales enablement. Worked on new product messaging and positioning.
- Spearheaded the creation of Happay Academy, developing content and presenting an onboarding video series for Happay's product suite
- Hosted two major events attended by representatives from over 100 companies, delivering a keynote on the "Changing Landscape of Corporate Travel" to introduce our product and generate interest
- Innovatively showcased our product offerings at events by gamifying the experience through interactive game sessions

BetterPlace, Bangalore

Role: Senior Manager, Digital Marketing | Dec 2020 - March 2022

- Defined product positioning, messaging, and value propositions that introduced our blue-collar HRMS solution in the market
- Conceptualized and created the newsletter "Blue-Collar Chronicles" for continuous engagement of clients and prospects. Improved subscriber base from 400 to 10k in one year.
- Formulated roadmap for the amalgamation of two acquired brands of OLX People and Oust Labs
- Shaped unified brand message and positioning statements, identified unique value propositions, defined marketing programs and go-to-market strategies for the acquired entity
- Created the paid media plan (Google, LinkedIn and Facebook Ads) for demand generation and to gain market share. Oversaw execution while driving continuous optimisation (creative routes, message, TA) as required.
- Organised live Economic Times roundtables, conceptualizing topics and microsite themes for ET HR, and nurturing leads through drip marketing and social media outreach

Sensiple Software Solutions, Chennai

Role: Senior Manager, Digital Marketing | May 2015 - October 2020

- Led a team of digital marketers, designers, and content writers, setting goals and facilitating various digital marketing initiatives
- Formulated go-to-market plans for products like Kaptiche, Setrega, and PhiFIX, successfully expanding business into new regions such as the US, UK, EMEA, and Southeast Asia
- Developed ideal customer personas based on market research and existing customer data to enhance the online customer experience across all stages of the user funnel
- Acted as the voice of executive management by crafting strategic emails and speeches for the COO and executive team to foster employee satisfaction and transparency
- Delivered a keynote address titled "How Data Capture Can Help Industries Scale to Industry 4.0," providing insights that shaped the future roadmap for Intelligent Process Automation products
